INFORMATION FOR APPLICANT

Application For Airman Medical Certificate
or
Airman Medical and Student Pilot Certificate

Privacy Act Statement

The information on the attached FAA Form 8500-8, Application For Airman Medical Certificate or Airman Medical and Student Pilot Certificate, is solicited under the authority of Title 49, United States Code (U.S.C.) (Transportation) sections 109(9), 40113(a), 44701-44703, and 44709 (1994) formerly codified in the Federal Aviation Act of 1958, as amended, and Title 14, Code of Federal Regulations (CFR), part 67, Medical Standards and Certification.

Except for your Social Security Number (SSN), submission of this information is mandatory. Incomplete submission will result in delay of further consideration or denial of your application for a medical certificate or medical and student pilot certificate. Other than your SSN, the purpose of the information is to determine whether you meet Federal Aviation Administration (FAA) medical requirements to hold a medical certificate or medical and student pilot certificate. The information will also be used to provide data for the FAA's automated medical certification system to depict airman population patterns and to update certification procedures and medical standards. For air traffic control specialists (ATCS) employed by the Federal Government, the information requested will be used as a basis for determining medical eligibility for initial and continuing employment. The information becomes part of the FAA Privacy Act system of records, DOT/FAA-847, General Air Transportation Records on Individuals. These records and information in these records may be used (a) to provide basic airman certification and qualification information to the public upon request; (b) to disclose information to the National Transportation Safety Board (NTSB) in connection with its investigation responsibilities; (c) to provide information about airmen to Federal, state, and local law enforcement agencies when engaged in the investigation and apprehension of drug law violators; (d) to provide information about enforcement actions arising out of violations of the Federal Aviation Regulations to government agencies, the aviation industry, and the public upon request; (e) to disclose information to another Federal agency, or to a court or an administrative tribunal, when the Government or one of its agencies is a party to a judicial proceeding before the court or involved in administrative proceedings before the tribunal; (f) to disclose information to other Federal agencies for verification of the accuracy or completeness of the information; and (g) to comply with the Prefatory Statement of General Routine Uses for the Department of Transportation.

Submission of your SSN is not required by law and is voluntary. Refusal to furnish your SSN will not result in the denial of any right, benefit, or privilege provided by law. Your SSN is solicited to assist in performing the agency's functions under 49 U.S.C. (Transportation). If supplied, it will be used by the FAA to associate all information in agency files relating to you. If you refuse to supply your SSN, a substitute number or other identifier will be assigned, as required.

The written consent authorization of this form under No. 20, Applicant's Declaration, permits the FAA to request information, if any, pertaining to your driving record from the National Driver Register (NDR). The FAA will then match such NDR information with the information you provide on the medical history part of the form. Since the NDR identifies only probable matches, the FAA will verify the NDR information it receives with the state of record. You have the right to request an NDR file check to determine if it contains any information and, if so, the accuracy of such information. Notarized requests may be sent to: DOT/NHTSA/NTS-32, 400 7th Street, S.W., Washington, DC 20590-0001, and must contain your complete name and date of birth. Other information about height, weight, and eye color will ensure correct positive identification.

Paperwork Reduction Act Statement:
The information collected on this form is necessary to ensure applicants meet the minimum requirements as set forth under the authority of 49 U.S.C. (Transportation). This information will be used to determine applicant eligibility for a medical certificate, medical and student pilot certificate, or ATCS eligibility for employment. When all requirements have been met, an appropriate medical certificate, medical and student pilot certificate, or medical clearance will be issued. It is estimated that it will take each applicant 2 hours to complete this form and provide all the information called for (includes providing medical history information and physical examination). The information is required to obtain a certificate and is confidential. The information will become part of the Privacy Act system of records DOT/FAA 847, General Air Transportation Records on Individuals. Note that an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The control number for this collection of information is 2120-0034.
